

Thank you from Hungary

Dear colleagues, students and friends,

We all are really grateful for those wonderful 10 days we could spend together with you in Burgas. The students have such good memories that some of them are planning to go back next summer. They told so. I think it's just an amazing proof of how much they enjoyed themselves there. Thank the students and their parents for their hospitality.

We teachers could also take our minds off usual school work and have a good time seasoned with some critical thinking activities, presentations and field trips. The photos taken talk for themselves.

Bulgaria is a beautiful country with friendly folks and delicious food. No one should miss it.
